Consulting Value Programs samples performed in past:

- Programs: establishing programs, reporting systems ,operations and management systems, training systems
- Coordination Systems: reporting, expert databases, correlations, rule analysis, financial, teaming, “train the trainer”

Teaming with SAMI VE LLC:

- Some of the largest corporations in the world have teamed with SAMI VE LLC. Benefits include:
 - dropping the need to develop local expertise (which can exceed a cost of \$175,000 per person and can be gone within two weeks)
 - offering personnel that have been exposed to a vast array of operations, processes, and systems
 - reducing overall costs for your client and yourself. Our average return on investment for clients is \$60 for every dollar invested. We are expert in helping you reduce your costs, while helping your client reduce theirs
 - meeting contract objectives. In many cases, the VE/VA/VM expertise request may be small when compared to the total, but is key to obtaining a successful contract. We probably know the VE/VA/VM needs you have been requested to provide better than the organization that requested the service. We know how to make your firm shine in the value process field.

Helping clients meet their contractual objects, and cost and performance objectives for over 30-years.
